INTERIOR DESIGN PROPOSAL

A home that lives the
way you do

Cybelle Sampaio

I am an interior designer and decorator based in Orange County, California. My passion is creating warm, sophisticated homes built around the way you actually live; layered and tactile, quietly luxurious, combining creativity with a strong aesthetic sense. Having lived in Brazil, Missouri, New York, and Florida, I bring a well-traveled eye to residential interiors, creating elegant and personalized spaces.

PERSONAL
SERVICE

Design, from first idea to final styling

01 Design concept & mood boards

A clear visual direction (palette, materials, and mood) so we agree on the feeling before we commit to a single purchase.

02 Floor plans & layouts

Space planning drawn to scale, with furniture placement, flow, and dimensions worked out on paper first.

03 3D renderings

Photorealistic views of your rooms so you can walk through the design and see exactly how it comes together.

04 Sourcing & styling

A curated shopping list of furniture, lighting, and accessories, plus the final styling that makes a room feel finished.

A note on scope: my practice is dedicated to designing and decorating living spaces, not replacing your General Contractor, or renovating kitchens or bathrooms

The process

Discovery

We start with the questionnaire and a conversation, then I visit and measure the space. This is where I learn how you live.

Concept

I present a design direction (mood board, palette, and materials), so we agree on the feeling before anything is chosen.

Design & sourcing

Floor plans, 3D renderings, and a curated sourcing list come together into one cohesive scheme, with a round of refinements.

Styling & reveal

Pieces arrive, everything is placed and styled, and your space is ready to be lived in; exactly as we imagined it.
